

Trace the Banana's Journey

You need a pencil.

1 Explore

Read the five stages. They are printed out of order.

A on the shop shelf, ready to buy

B in a warehouse, ripening slowly

C cut down on the farm

D in a cool ship crossing the sea

E on a lorry to the shop

2 Create

- 1 Write 1 to 5 in the small boxes to put the journey in order.
- 2 Draw an arrow from each stage to the one that follows it.

3 Explain

Name one thing that could go wrong at stage 2, and what would follow.

Add one more idea: where would you add a stage for checking quality?
